VEXIRA

Select the right set before quotation

1 IDENTIFY

Send the vehicle make, model, year and engine. An OE number or a clear photo helps us confirm faster.

2 CONFIRM

We check the wire-set layout, terminals, boots and available application references. Compatibility remains subject to final confirmation.

3 QUANTITY

Tell us the estimated quantity, destination country and any private-label or packaging requirement.

4 SUPPLY

Project support can include samples, production follow-up, quality inspection coordination, packing and shipment coordination.

MATERIAL & CONSTRUCTION

EPDM and silicone options are confirmed by model and order requirement.

Do not select material, resistance or fitment from appearance alone.

POPULAR APPLICATIONS BY BRAND

SELECTED POPULAR APPLICATIONS ONLY

Not listed does not mean unavailable. Send us your OE number and we will check it for you.
